

Module 17: Capstone: Clinical Competency Assessment

Instructor Guide

Module Overview

Attribute	Detail
Duration	3 hours presentation + assessment day(s)
Format	Review lecture, mock assessments, Q&A
Prerequisites	Modules 1–16 completed
Materials	Presentation slides, student workbook, mock exam papers, assessment rubrics

Learning Objectives

Students will be able to:

1. Understand the complete assessment structure
 2. Prepare effectively for all examination components
 3. Demonstrate competency in dry and wet cupping
 4. Conduct patient consultations to standard
 5. Respond to emergency scenarios
 6. Meet all certification requirements
-

Timing Breakdown

Segment	Time	Slide(s)
Introduction and reassurance	10 min	1–2
Chapter 1: Assessment Overview	50 min	3–6
—Break —	10 min	—
Chapter 2: Simulation and Certification	50 min	7–10
Mock assessment demonstration	30 min	Live
Q&A and final preparation advice	20 min	Open
Summary and graduation message	10 min	11–12

Slide-by-Slide Notes

Slide 1 — Cover

- Welcome students to their final module
- Acknowledge their achievement in reaching this point
- Frame the assessment as an opportunity to shine, not a hurdle to clear

Slide 2 — Table of Contents

- Preview the two chapters
- Emphasise that this module is about preparation and confidence

Slide 3 — Chapter 1: Assessment Overview and Preparation

- Set a calm, supportive tone

Slide 4 — Written Examination Teaching points (15 min):

- Walk through the format, content breakdown, and pass criteria
- Share study strategies: review weakest areas first, practise MCQs
- **Activity:** Students complete the module self-assessment in workbooks
- Emphasise: 70% is the minimum — encourage aiming higher

Slide 5 — Practical: Dry Cupping Assessment Teaching points (15 min):

- Walk through each criterion in the assessment table
- Demonstrate the complete dry cupping protocol on a volunteer
- Emphasise narration — examiners cannot award marks for unseen competence
- **Tip:** Errors acknowledged and corrected score better than errors hidden

Slide 6 — Practical: Wet Cupping Assessment Teaching points (15 min):

- Walk through each criterion, emphasising sterile technique
- Read the critical failures box aloud — these are automatic fails
- Demonstrate wet cupping protocol
- Emphasise: safety is non-negotiable at every level

Slide 7 — Chapter 2: Clinical Simulation and Certification

- Transition: “Now we put it all together”

Slide 8 — Simulated Patient Consultation Teaching points (15 min):

- Describe each scenario type
- **Demonstration:** Conduct a mock consultation with an actor
- Debrief the demonstration with students
- Emphasise: clinical reasoning out loud, empathy, safety

Slide 9 — Safety and Emergency Protocols Teaching points (15 min):

- Walk through both emergency drills
- **Demonstration:** Respond to a vasovagal scenario
- Review the emergency kit checklist
- Emphasise: calm, systematic response saves lives

Slide 10 — Certification and Next Steps Teaching points (15 min):

- Walk through certification requirements
- Review ongoing obligations
- Share what graduates receive
- Answer practical questions about the assessment day

Slide 11 — Summary and Graduation Message

- Read each key takeaway
- Read the graduation message aloud — this is a significant moment
- Acknowledge the weight of what they are about to undertake

Slide 12 — Final Reflection

- Read the hadith aloud
 - Close with personal words of encouragement
 - Remind them: the faculty believes in them, and more importantly, they have the knowledge and skill to succeed
-

Mock Assessment Demonstration

Preparation:

- Recruit a volunteer (student or assistant)
- Set up full assessment station
- Prepare assessment rubric for students to follow

Demonstration (15 min):

- Complete dry cupping protocol with full narration
- Students observe and score using the rubric

Debrief (15 min):

- Compare student scores with instructor scores
 - Discuss any discrepancies
 - Answer questions
-

Assessment Day Guidance

Before the day:

- Send reminder with what to bring (ID, first aid cert, insurance)
- Confirm venue and timing
- Prepare all assessment materials

On the day:

- Welcome students warmly — reduce anxiety
- Brief clearly on procedures and timing
- Maintain consistent standards for all candidates
- Provide constructive feedback to all, regardless of outcome

After the day:

- Process results within 5 business days
- Issue certificates to successful candidates
- Offer support and retake guidance to unsuccessful candidates

Common Student Concerns

Concern	Response
“What if I fail?”	You have one free retake. Focus on preparation, not fear.
“I’m nervous about the practical”	Nerves are normal. Practise until it becomes automatic.
“What if I forget something?”	Narrate your thinking. Partial credit is better than silence.
“When do I get my results?”	Within 5 business days via email.
“What if I disagree with my mark?”	You can request a review through the SRA appeals process.
