

Module 17: Capstone: Clinical Competency Assessment

Student Workbook

Learning Objectives

Upon completing this module, you will be able to:

1. Understand the capstone assessment structure and scoring criteria
 2. Prepare effectively for the written examination
 3. Demonstrate dry and wet cupping techniques to assessment standard
 4. Conduct a simulated patient consultation competently
 5. Respond to emergency scenarios using correct protocols
 6. Meet all requirements for SRA-001 certification
-

Pre-Assessment Questions

1. Which module topics do you feel most confident about? Least confident?
 2. What practical skill requires the most practice before assessment?
 3. How will you manage nerves during the practical examination?
 4. What does SRA-001 certification mean to you personally and professionally?
-

Section 1: Written Examination Preparation

Self-Assessment by Module Rate your confidence (1-5) in each module's content:

Module	Topic	Confidence	Review Priority
1	Foundations		
2	History and Sunnah		
3	Anatomy		
4	Physiology		
5	Point Location		
6	Equipment		
7	Infection Control		
8	Consultation		
9	Dry Cupping		
10	Wet Cupping		
11	Clinical Conditions		
12	Special Populations		
13	Business		
14	Advanced Therapeutics		
15	Research		

Table 1 – continued

Module	Topic	Confidence	Review Priority
16	Professional Development		

Study Plan Create your final study schedule:

Days Before	Focus Area	Activities	Time
14			
10			
7			
3			
1			

Section 2: Practical Examination Preparation

Dry Cupping Checklist Practise until you can complete all steps without hesitation:

- Hand hygiene performed correctly
- Patient positioned appropriately
- Equipment checked and laid out
- Verbal consent obtained
- Procedure explained to patient
- Correct cup selection for treatment area
- Proper placement and suction level
- Patient comfort checked during treatment
- Correct removal technique
- Skin inspected post-treatment
- Aftercare advice given
- Equipment cleaned and packed away
- Documentation completed

Wet Cupping Checklist

- All dry cupping steps completed
- Skin prepared and sterilised
- Sterile blade handled correctly
- Incision depth and angle appropriate
- No-touch technique maintained
- Blood flow monitored
- Wound cleaned and dressed
- Sharps disposed of correctly
- Patient observed post-treatment
- Detailed documentation completed

Section 3: Simulated Patient Consultation

Consultation Framework Practise Use this framework for every practise consultation:

Opening (2 min):

- Greeting and rapport building
- Purpose of visit
- Expectations

History (8 min):

- Presenting complaint (OPQRST)
- Past medical history
- Medications and allergies
- Previous treatments
- Lifestyle factors

Screening (5 min):

- Contraindications check
- Red flag identification
- Pregnancy possibility (women)
- Blood-thinning medications

Assessment (3 min):

- Physical observation
- Palpation of relevant points
- Outcome measure baseline

Planning (5 min):

- Point selection rationale
- Technique choice
- Expected outcomes
- Number of sessions
- Cost discussion

Closing (2 min):

- Informed consent
- Pre-treatment instructions
- Questions
- Booking

Section 4: Emergency Protocols

Vasovagal Response Drill Step-by-step response:

1. _____
2. _____
3. _____
4. _____
5. _____

Excessive Bleeding Drill Step-by-step response:

1. _____
2. _____
3. _____
4. _____
5. _____

Emergency Contacts

- Ambulance: 000
 - Nearest hospital: _____
 - Poison information: 13 11 26
 - Your supervisor: _____
-

Section 5: Certification Checklist

Pre-Certification Requirements Confirm you have:

- Passed written examination (70%+)
 - Passed dry cupping practical (70%+)
 - Passed wet cupping practical (70%+)
 - Passed simulated patient consultation (70%+)
 - Passed safety and emergency drill
 - Submitted logbook (50 supervised hours)
 - Current first aid certificate
 - Professional indemnity insurance
 - All fees paid
-

Final Reflection

Write a letter to yourself — the person who started Module 1. What would you tell them about the journey?

SRA-001 Certified Hijama Practitioner Program — Sunnah Remedies Academy

Congratulations on completing all 17 modules. You are ready.
