

# SUNNAH REMEDIES ACADEMY

## PRESENTATION DESIGN SYSTEM

### 1. MASTER LAYOUTS

#### 1.1 Base Grid System

All layouts are built on a **12-column grid** with the following safe zones:

| Zone          | Measurement                               |
|---------------|-------------------------------------------|
| Content Area  | 92% width (4% margins left/right)         |
| Top Margin    | 8% of slide height                        |
| Bottom Margin | 12% of slide height (accommodates footer) |
| Gutter        | 24px between columns                      |

#### 1.2 Aspect Ratio Standards

- Primary:** 16:9 (1920×1080) — all digital presentations
- Secondary:** 4:3 (1024×768) — legacy projector compatibility
- Mobile:** 9:16 (1080×1920) — vertical course content

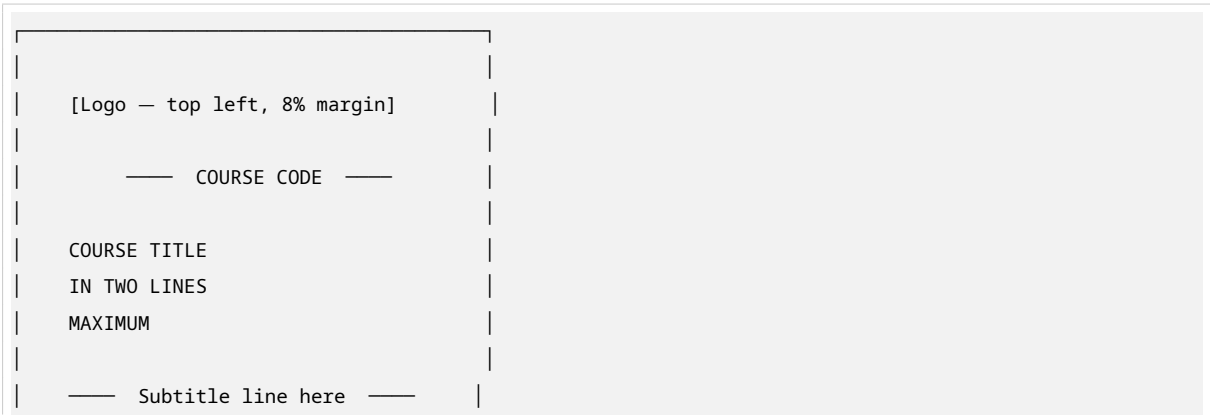

#### 1.3 Master Slide Variants

| Master         | Purpose                     | Background                       |
|----------------|-----------------------------|----------------------------------|
| Master Light   | Standard content            | Warm white (#FAF8F5)             |
| Master Dark    | Title, chapter, emphasis    | Deep emerald (#0A3A2F)           |
| Master Accent  | Clinical, data, assessment  | Sand gold (#C9A84C)              |
| Master Texture | Cultural, spiritual content | Subtle geometric pattern overlay |

### 2. TITLE SLIDES

#### 2.1 Course Title Slide

**Layout:** Full-bleed dark background with asymmetric composition

### Typography:

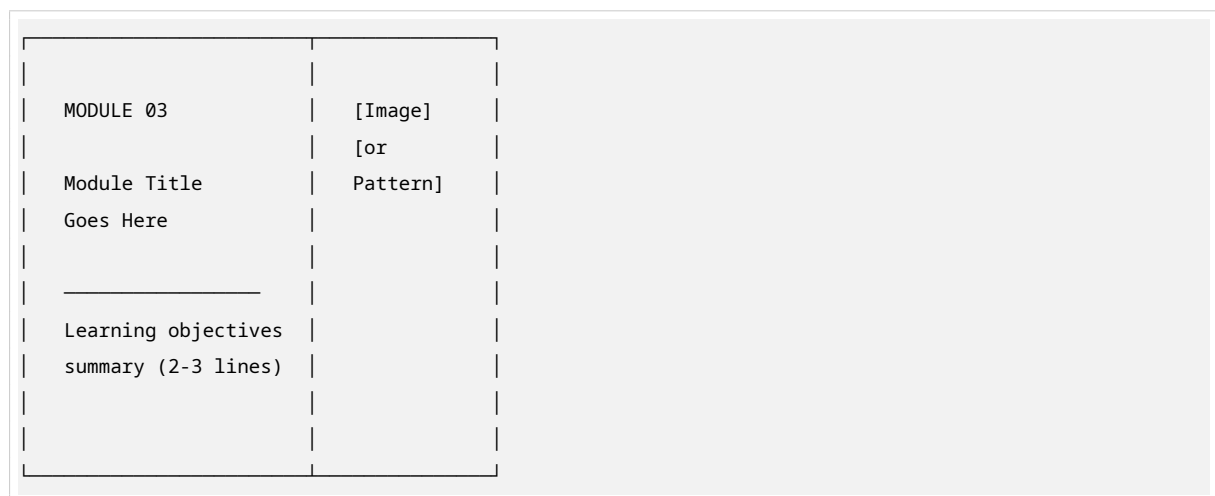

- Course Code: **Montserrat Light**, 14px, uppercase, tracking 4px, sand gold (#C9A84C)
- Title: **Playfair Display Bold**, 72px, warm white (#FAF8F5), line-height 1.1
- Subtitle: **Montserrat Regular**, 20px, warm white at 70% opacity

### Visual Elements:

- Geometric arabesque motif (bottom right, 30% opacity, sand gold)
- Thin horizontal rule (1px, sand gold, 40% opacity) separating code from title

## 2.2 Module Title Slide

**Layout:** Split composition (60/40)

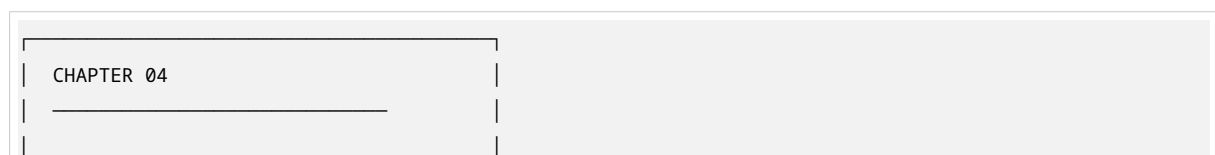

**Left Panel:** Deep emerald (#0A3A2F), all text warm white **Right Panel:** Full-bleed image or textured pattern

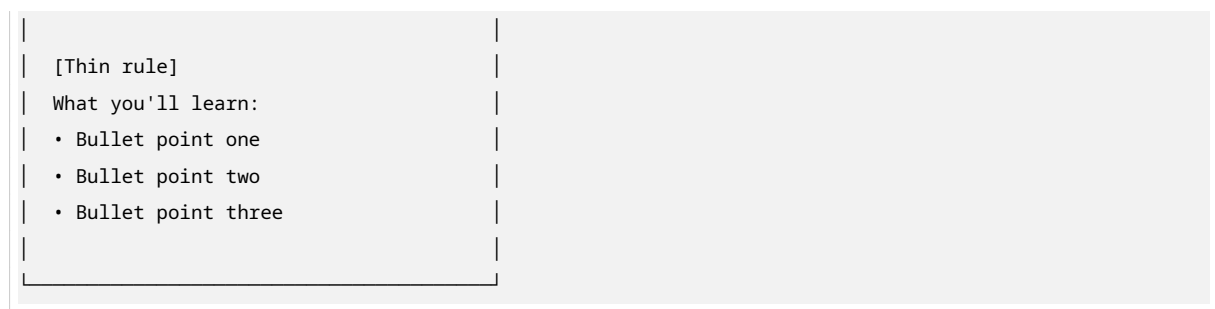

## 3. CHAPTER OPENERS

### 3.1 Standard Chapter Opener

**Purpose:** Major section breaks within a course

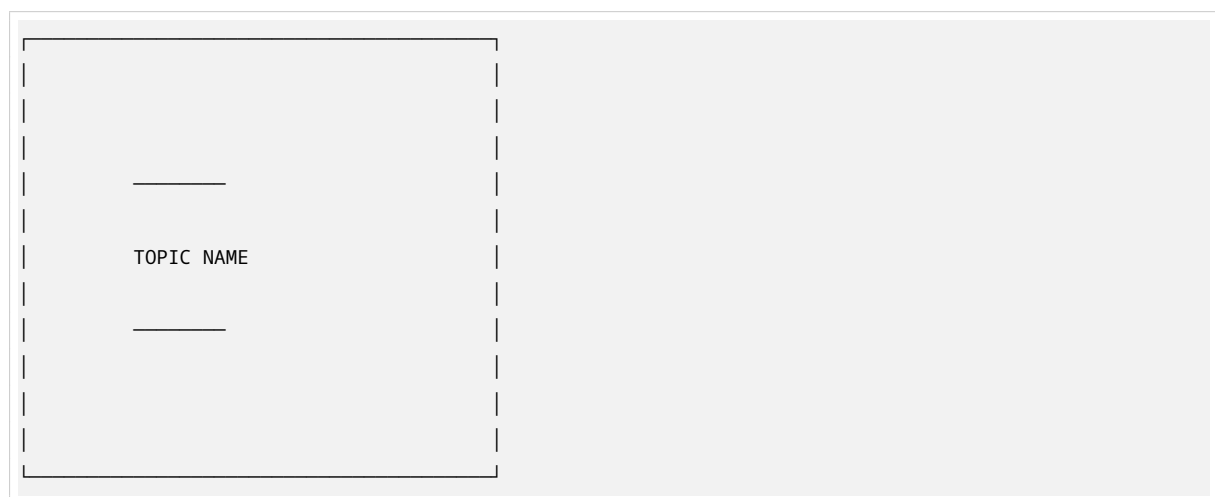

**Color:** Dark text on light background, lesson number in sand gold

---

## 5. DIVIDER SLIDES

### 5.1 Simple Divider

**Purpose:** Transition between topics within a lesson

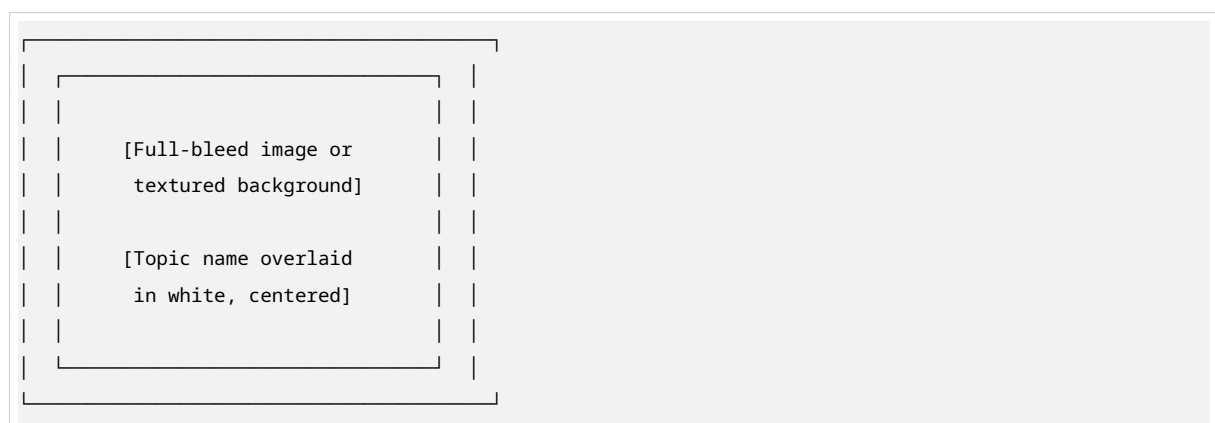

**Typography:** Montserrat Medium, 28px, uppercase, tracking 3px **Rule:** 60px wide, 2px, sand gold

---

### 5.2 Visual Divider

**Purpose:** Stronger transition, often before/after video or activity

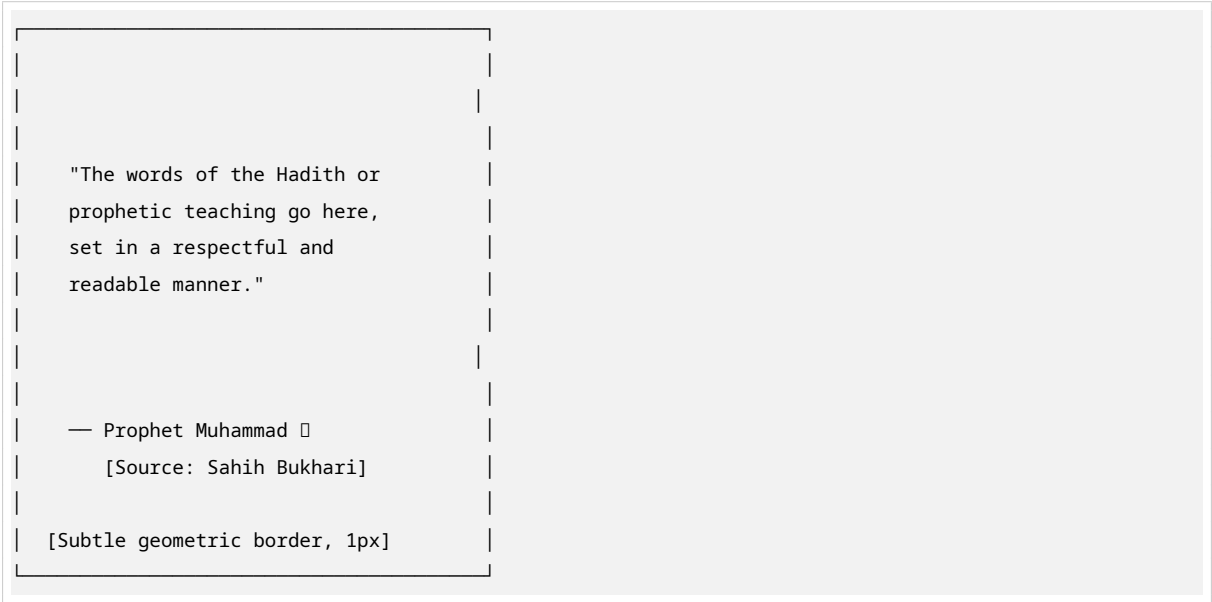

**Overlay:** Deep emerald at 60% opacity behind text

## 6. QUOTE SLIDES

### 6.1 Hadith/Prophetic Quote

**Purpose:** Sacred text quotations

#### Typography:

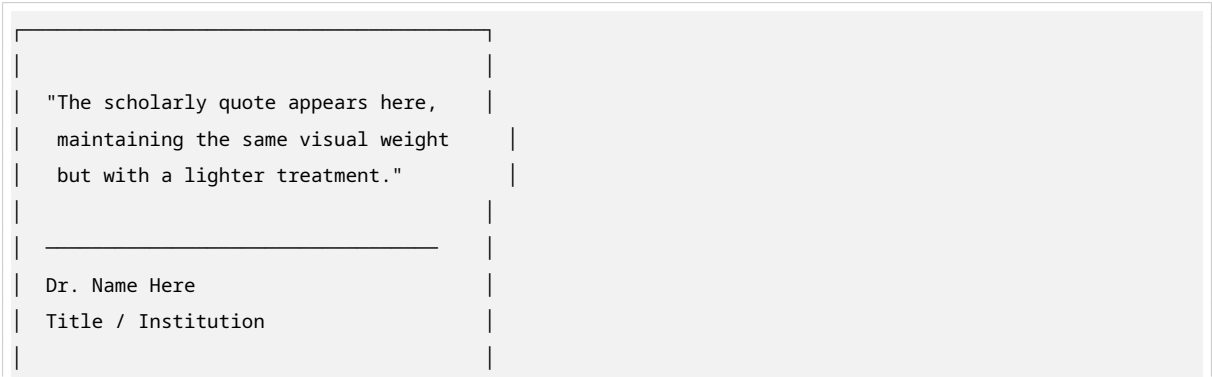

- Quote: **Playfair Display Italic**, 32px, deep emerald
- Attribution: **Montserrat Medium**, 14px, sand gold
- Source: **Montserrat Light**, 12px, 50% opacity

#### Rules:

- Always include full attribution with source
- Use quotation marks ( ) not straight quotes
- Minimum 40px padding on all sides

### 6.2 Scholar/Contemporary Quote

**Purpose:** Expert opinions, research citations

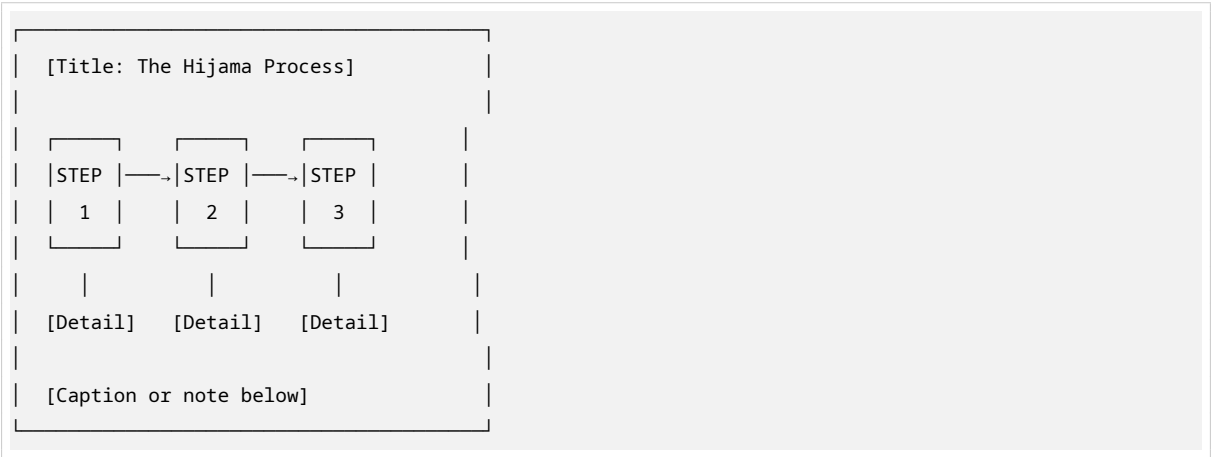

**Typography:** Montserrat Regular, 24px, with horizontal rule separating quote from attribution

## 7. DIAGRAM SLIDES

### 7.1 Process Diagram

**Layout:** Horizontal flow, left to right

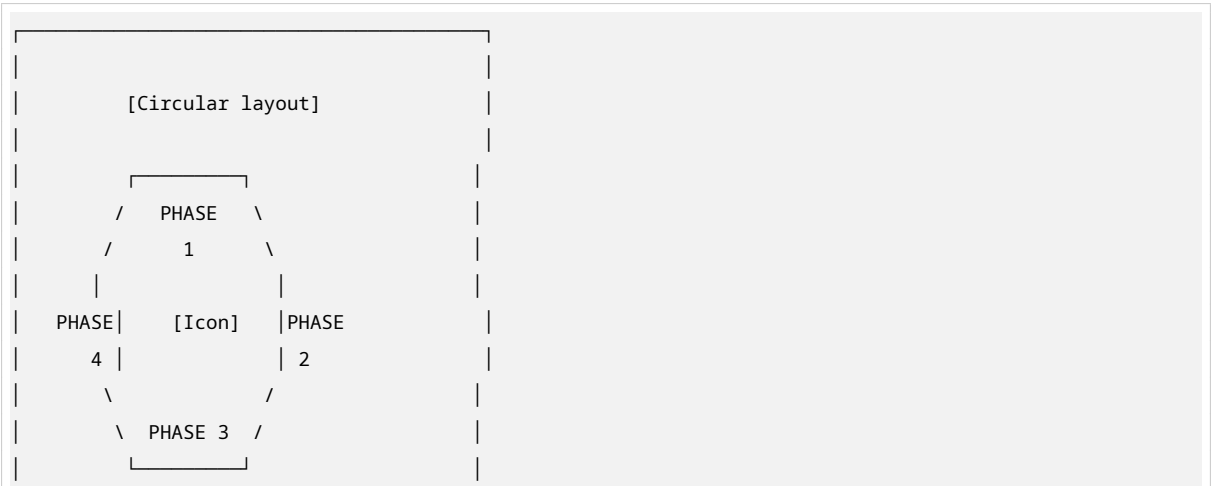

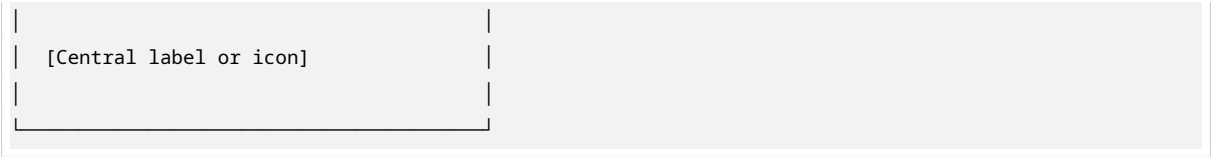

**Visual System:**

- Steps: Rounded rectangles (8px radius), 2px border, sand gold
- Active step: Filled sand gold, white text
- Inactive steps: Transparent, sand gold border
- Arrows: 2px line, sand gold, arrowhead filled
- Connecting lines: 1px, 30% opacity sand gold

### 7.2 Cycle Diagram

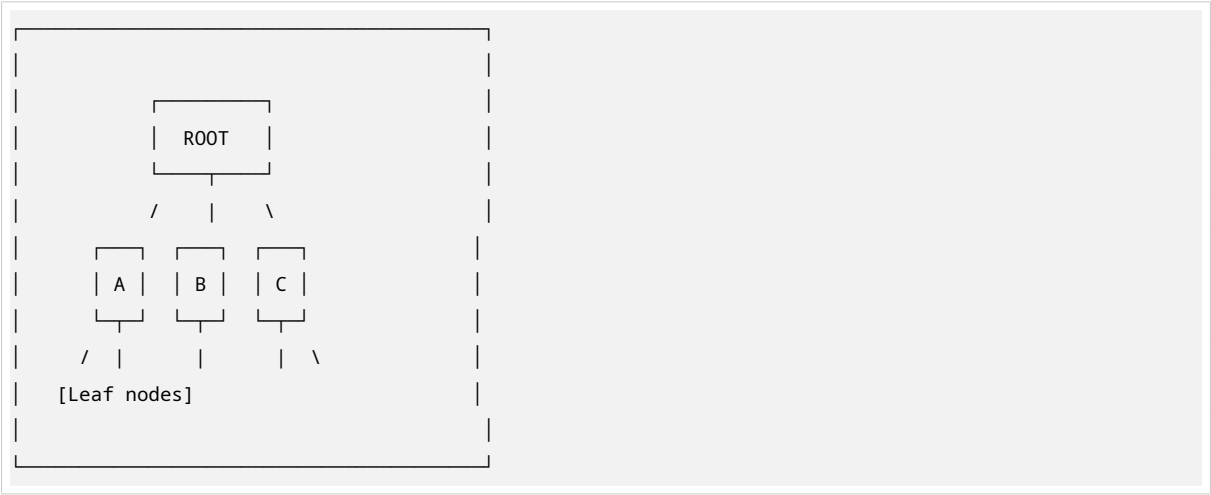

**Purpose:** Continuous processes, wellness cycles

7.3 Hierarchy Diagram

**Purpose:** Classification, taxonomy, organizational structure

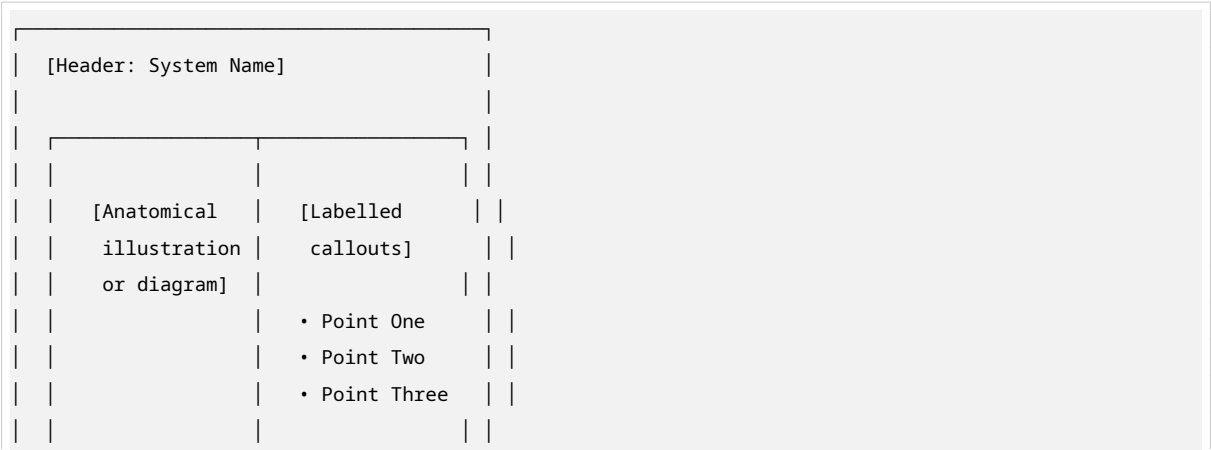

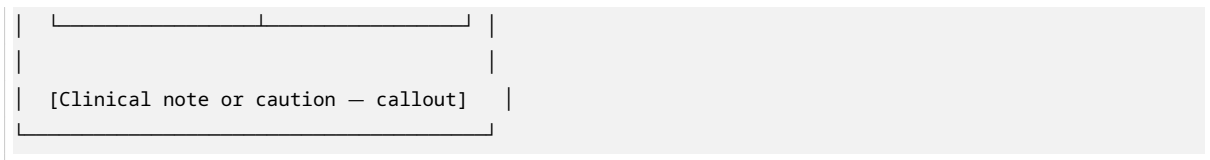

- Rules:**
- Root node: Filled deep emerald, white text
  - Branch nodes: Sand gold border, transparent fill
  - Leaf nodes: Light sand (#F5F0E8) fill, deep emerald text
  - Connecting lines: 1.5px, deep emerald at 40% opacity

8. CLINICAL SLIDES

8.1 Anatomy/Physiology Slide

**Purpose:** Medical illustrations, body systems

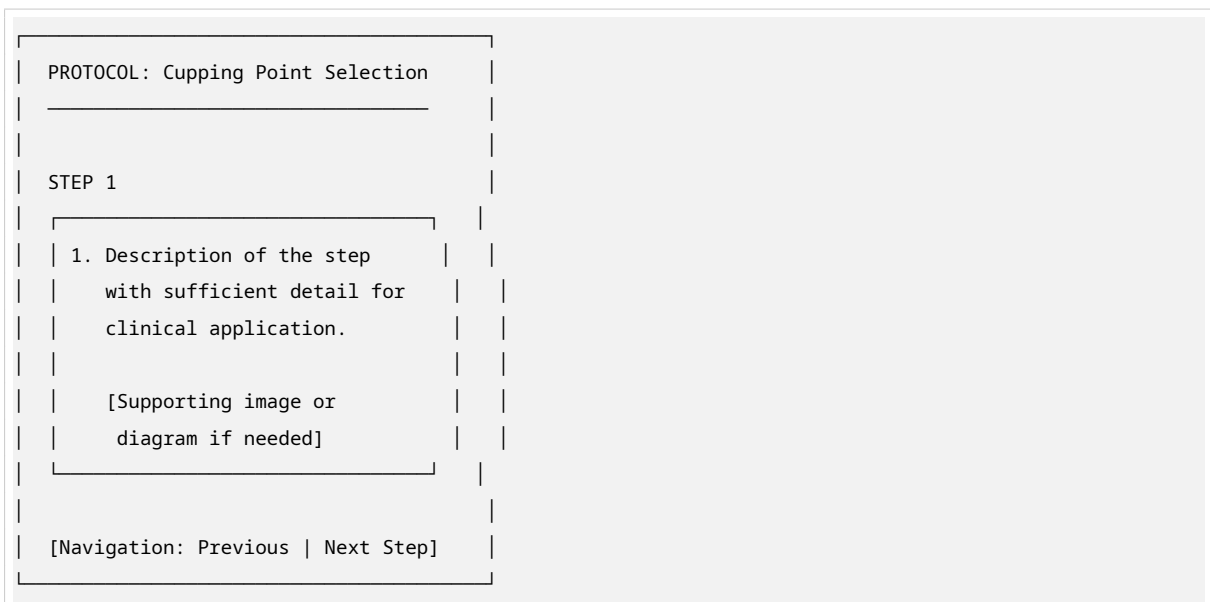

### Visual Rules:

- Medical illustrations: Clean line art style, deep emerald lines on light background
- Callout lines: 1px, sand gold, connecting to numbered markers
- Clinical notes: Sand gold left border (4px), light sand background (#F5F0E8)

## 8.2 Protocol Slide

**Purpose:** Step-by-step clinical procedures

### Step Container:

- Border: 1px, deep emerald at 20% opacity
- Step number: Sand gold, 48px, Playfair Display Bold
- Background: White with subtle shadow (0 2px 8px rgba(10,58,47,0.06))

## 8.3 Contraindication Slide

**Purpose:** Safety warnings, when NOT to apply

|                     |  |
|---------------------|--|
| ABSOLUTE            |  |
| • Condition one     |  |
| • Condition two     |  |
| • Condition three   |  |
|                     |  |
| RELATIVE            |  |
| • Condition one     |  |
| • Condition two     |  |
|                     |  |
| [Clinical note box] |  |

Color Coding:

- Absolute: Left border 4px, #C0392B (alert red), light pink background
- Relative: Left border 4px, sand gold, light sand background
- Warning icon: Always present, sand gold

9. CASE STUDY SLIDES

9.1 Case Presentation

Purpose: Patient/client scenario introduction

|                                                      |  |
|------------------------------------------------------|--|
| CASE STUDY 3                                         |  |
|                                                      |  |
| PATIENT PROFILE                                      |  |
| Name: [Initials or pseudonym]                        |  |
| Age: 34   Gender: Male                               |  |
| Presenting Complaint: [Brief]                        |  |
| Duration: 6 weeks                                    |  |
|                                                      |  |
| [Patient silhouette or respectful placeholder image] |  |
|                                                      |  |
| [Continue to assessment →]                           |  |

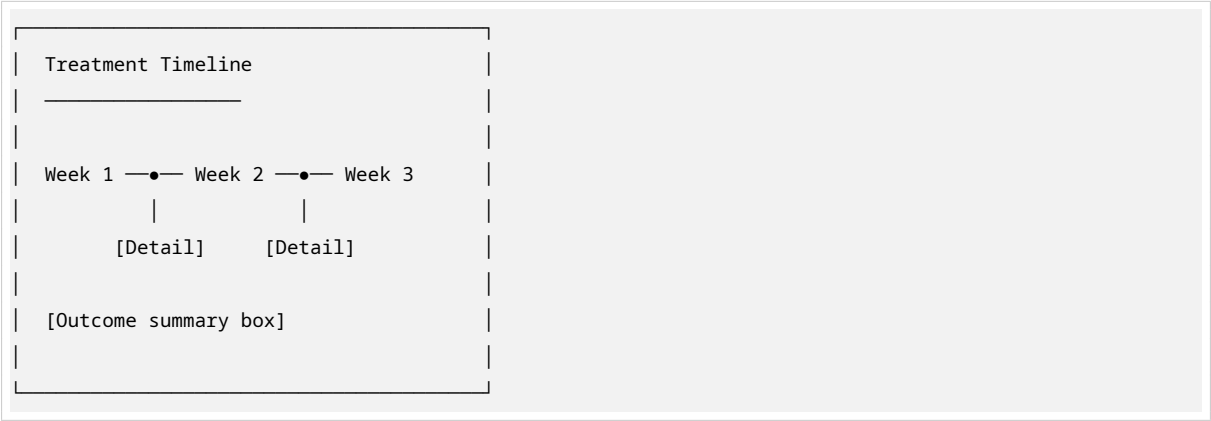

Profile Card:

- Background: Light sand (#F5F0E8)
- Border: 1px, deep emerald at 15% opacity

- Labels: Montserrat Medium, 12px, uppercase, sand gold
- Values: Montserrat Regular, 14px, deep emerald

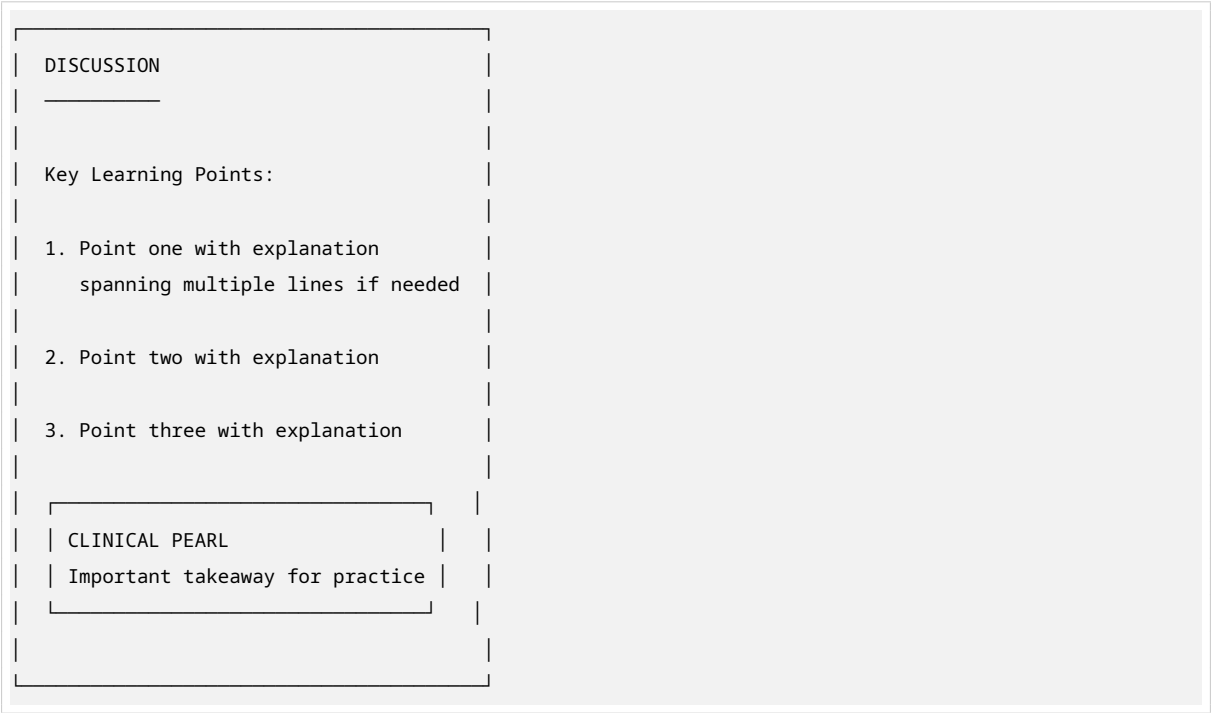

### 9.2 Case Timeline

**Purpose:** Progression through treatment

### 9.3 Case Discussion

**Purpose:** Analysis and learning points

## 10. ASSESSMENT SLIDES

### 10.1 Multiple Choice Question

**Purpose:** Knowledge checks, quizzes

QUESTION 4 of 12

What is the primary indication for dry cupping in musculoskeletal pain?

A) First option text here

B) Second option text here

C) Third option text here

[Submit]

[Show Hint]

#### Option States:

- Default: 1px border, deep emerald at 20%, transparent fill
- Hover (digital): Border darkens to 40%, subtle shadow
- Selected: 2px border, sand gold, light sand fill
- Correct: 2px border, #27AE60, light green fill, checkmark icon
- Incorrect: 2px border, #C0392B, light pink fill, X icon

### 10.2 Matching Exercise

**Purpose:** Term-definition or concept pairing

MATCHING EXERCISE

TERMS

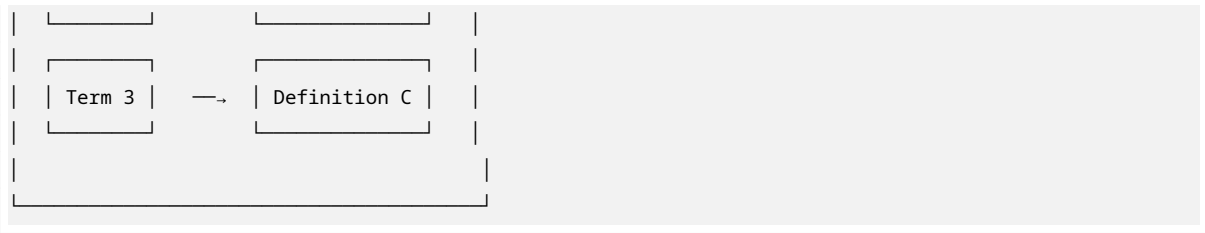

DEFINITIONS

Term 1

Definition A

Term 2

Definition B

### 10.3 Scenario-Based Assessment

**Purpose:** Clinical decision-making

|                                                                                                                                                                                                                               |  |

• Key point

• Key point

LESSON 3.2

• Key point

• Key point

LESSON 3.3

• Key point

• Key point

## 12. REFLECTION SLIDES

### 12.1 Personal Reflection

**Purpose:** Learner introspection, spiritual connection

|                                                                                                                                                                                                                                                                                                        |  |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| <div><div>MOMENT OF REFLECTION</div><div>Consider the following:</div><div>"How can you apply the Sunnah remedy of [topic] in your daily practice starting today?"</div><div>[Journaling prompt space]<br/>[Or discussion question for groups]</div><div>[Pause icon — 30 seconds silence]</div></div> |  |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|

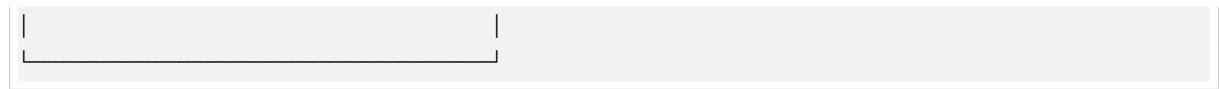

**Visual Treatment:**

- Background: Subtle gradient from warm white to light sand
- Centered composition with generous whitespace
- Decorative geometric element, 15% opacity, centered behind text
- Optional: Soft ambient sound cue indicator

### 12.2 Group Discussion

**Purpose:** Peer learning, community building

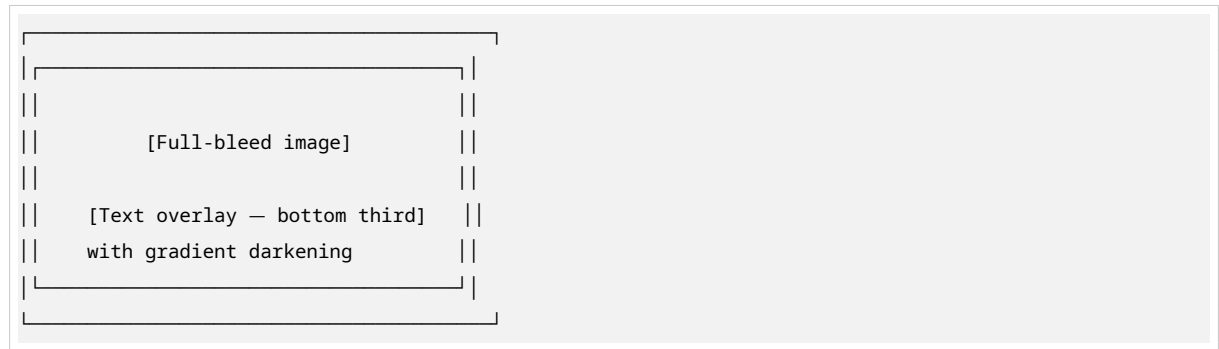

|                                                                                                                                                                                                                                                                                                                                             |  |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| <div><div>DISCUSS WITH YOUR PEERS</div><div>Question for group discussion:</div><div>"In your experience, what barriers have you encountered when trying to integrate natural remedies into modern healthcare settings?"</div><div>[Discussion time: 5 minutes]<br/>[Group size: 3-4 learners]<br/>[Timer graphic or countdown]</div></div> |  |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|

## 13. IMAGE LAYOUTS

### 13.1 Full-Bleed Hero

**Purpose:** Impactful single image

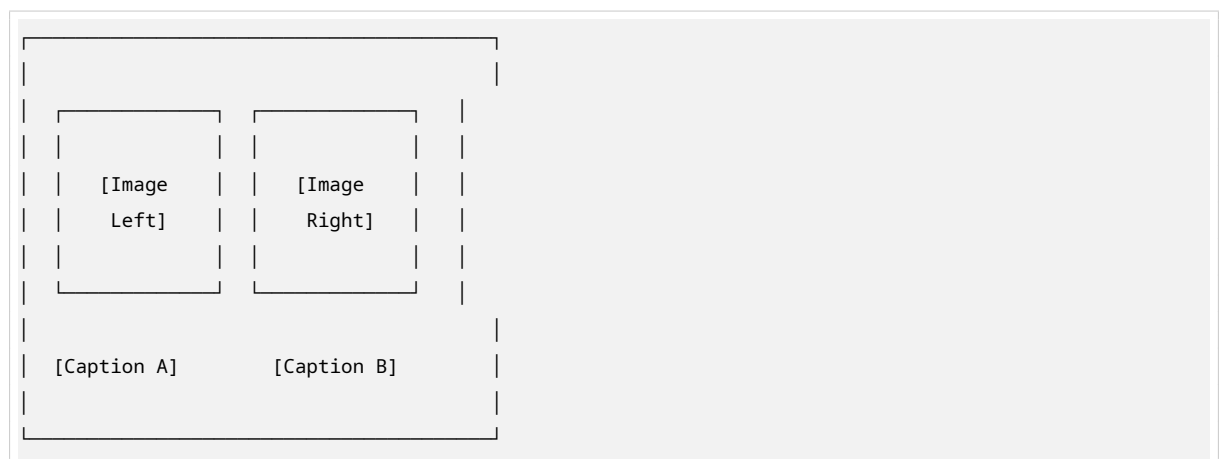

#### Text Overlay:

- Gradient: Transparent to deep emerald (bottom 40%)
- Text: Warm white, left-aligned, 8% margin
- Title: Playfair Display Bold, 36px
- Caption: Montserrat Regular, 14px

### 13.2 Two-Column Image

**Purpose:** Comparison, before/after, dual perspective

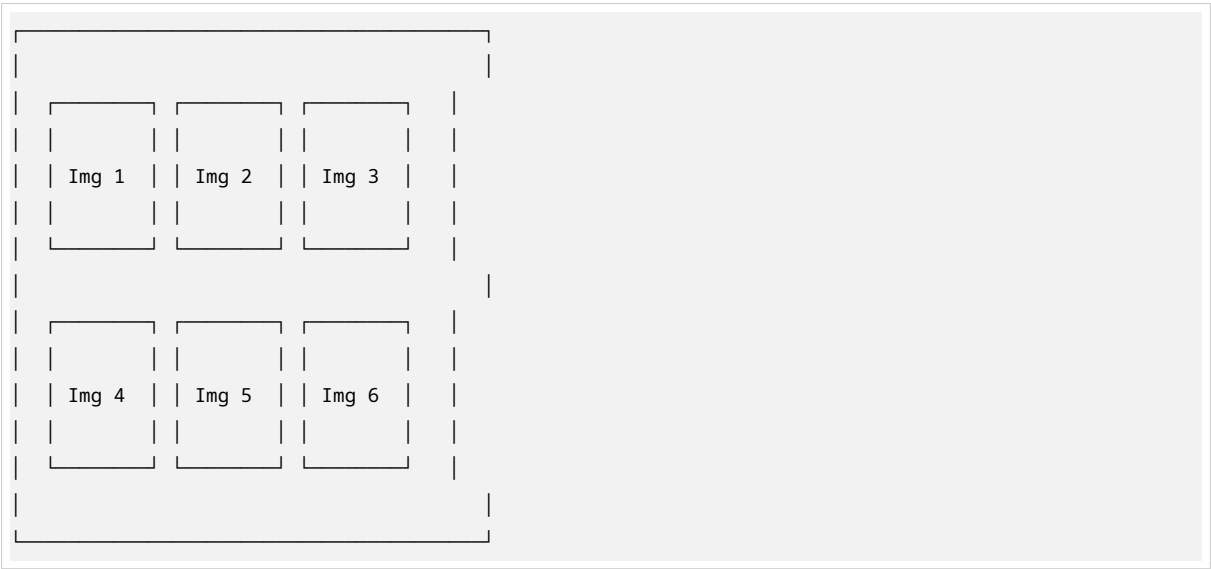

#### Rules:

- Equal width columns with 24px gutter
- Captions: Montserrat Regular, 12px, centered, 60% opacity

- Optional: Labels (A/B or Before/After) in sand gold

### 13.3 Image Grid

**Purpose:** Gallery, multiple examples

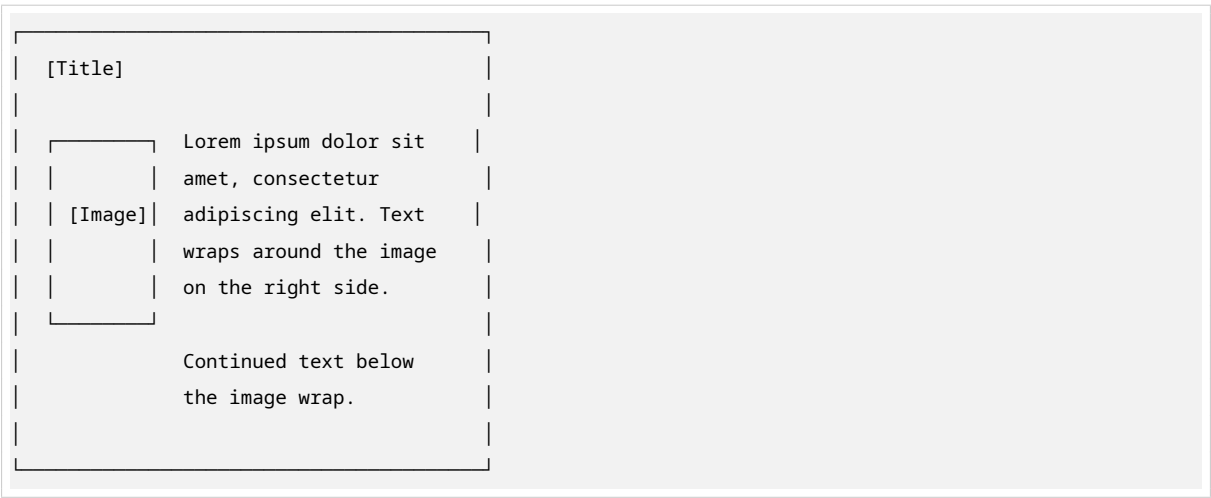

**Grid Specs:**

- 3 columns, 2 rows (standard)
- 16px gutter
- Images: 4:3 ratio within containers
- Rounded corners: 4px

### 13.4 Image with Text Wrap

**Purpose:** Editorial style, detailed explanation

## 14. TABLE LAYOUTS

### 14.1 Standard Data Table

**Purpose:** Comparative data, reference tables

|                           |          |          |
|---------------------------|----------|----------|
| Table Title               |          |          |
| Header 1                  | Header 2 | Header 3 |
| Row 1A                    | Row 1B   | Row 1C   |
| Row 2A                    | Row 2B   | Row 2C   |
| Row 3A                    | Row 3B   | Row 3C   |
| [Source note or footnote] |          |          |

**Table Styling:**

- Header row: Deep emerald background, warm white text, Montserrat Medium 12px
- Data rows: Alternating white and light sand (#F5F0E8)
- Borders: 1px, deep emerald at 10% opacity
- Cell padding: 16px horizontal, 12px vertical
- Text: Montserrat Regular, 13px, deep emerald

### 14.2 Comparison Table

**Purpose:** Side-by-side feature comparison

|                                 |             |             |
|---------------------------------|-------------|-------------|
| COMPARISON: Dry vs. Wet Cupping |             |             |
| Feature                         | Dry Cupping | Wet Cupping |
| Method                          | [Detail]    | [Detail]    |
| Indication                      | [Detail]    | [Detail]    |
| Caution                         | [Detail]    | [Detail]    |

### 14.3 Reference Table (Compact)

**Purpose:** Quick lookup, dense information

|                                 |               |            |
|---------------------------------|---------------|------------|
| Quick Reference: Cupping Points |               |            |
| Point                           | Location      | Indication |
| GV14                            | C7 spinous    | Immunity   |
| BL23                            | L2 paraspinal | Kidney     |
| ST36                            | Below knee    | Digestion  |
| [Abbreviation key below]        |               |            |

#### Compact Specs:

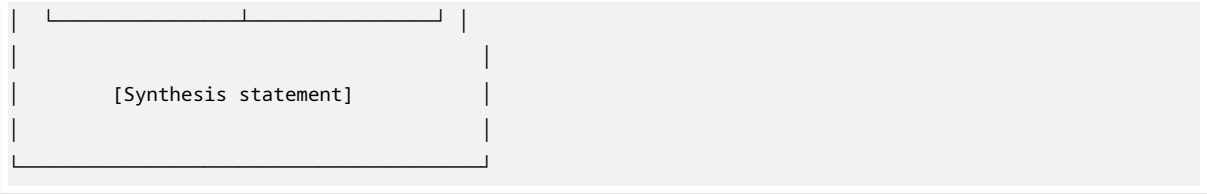

- Font: Montserrat Regular, 11px
- Row height: 32px
- Minimal padding: 8px horizontal
- No alternating colors (use horizontal rules only)

## 15. COMPARISON LAYOUTS

### 15.1 Side-by-Side Comparison

**Purpose:** Direct comparison of two concepts

|                |                |
|----------------|----------------|
| CONCEPT A      | CONCEPT B      |
| [Icon/Visual]  | [Icon/Visual]  |
| • Point one    | • Point one    |
| • Point two    | • Point two    |
| • Point three  | • Point three  |
| [Key takeaway] | [Key takeaway] |

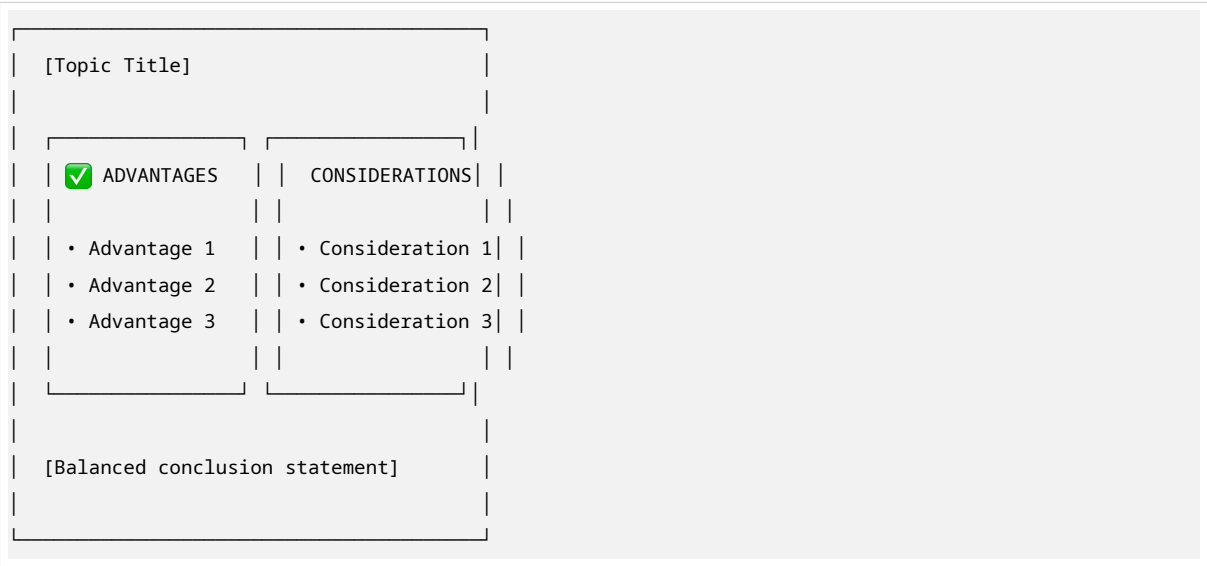

**Panel Styling:**

- Left panel: Sand gold border-top (4px), light sand background
- Right panel: Deep emerald border-top (4px), white background
- Divider: 1px vertical line, deep emerald at 15% opacity

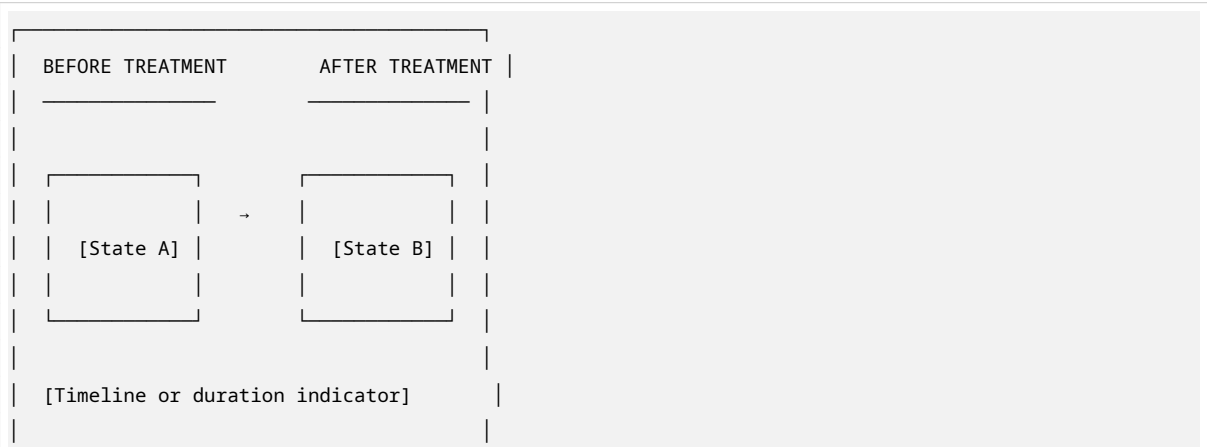

**15.2 Pros and Cons**

**Purpose:** Balanced evaluation

**15.3 Before/After Timeline**

**Purpose:** Transformation, treatment outcomes

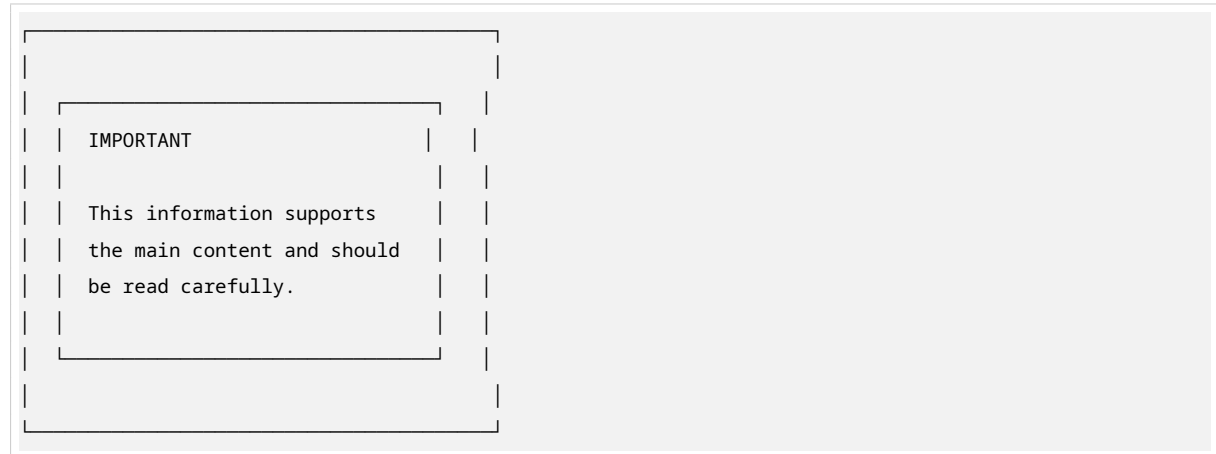

[Key changes bullet list]

## 16. CALLOUT LAYOUTS

### 16.1 Information Callout

**Purpose:** Important supplementary information

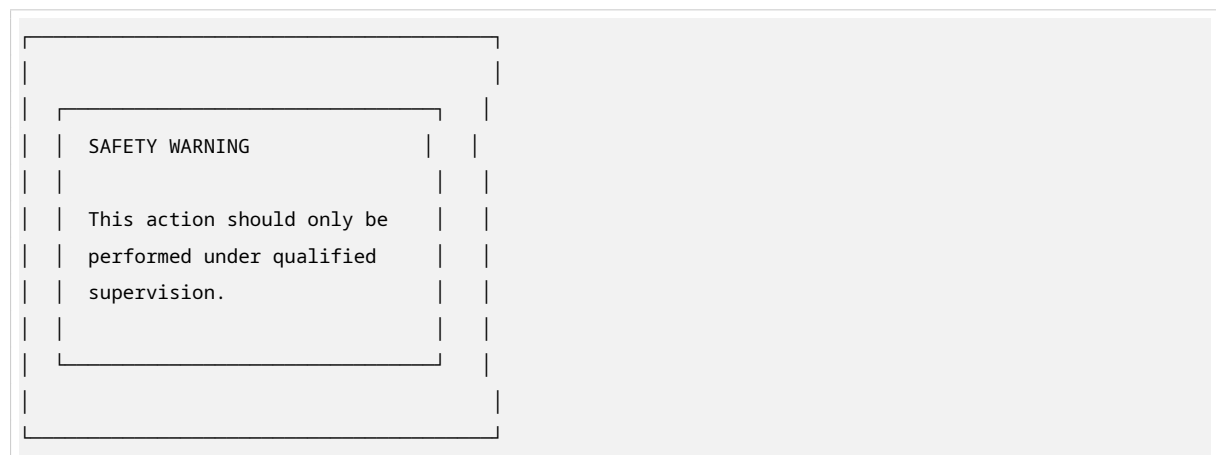

#### Styling:

- Background: Light sand (#F5F0E8)
- Left border: 4px, sand gold
- Icon: or relevant symbol, sand gold
- Padding: 20px
- Text: Montserrat Regular, 14px

### 16.2 Warning Callout

**Purpose:** Safety alerts, critical cautions

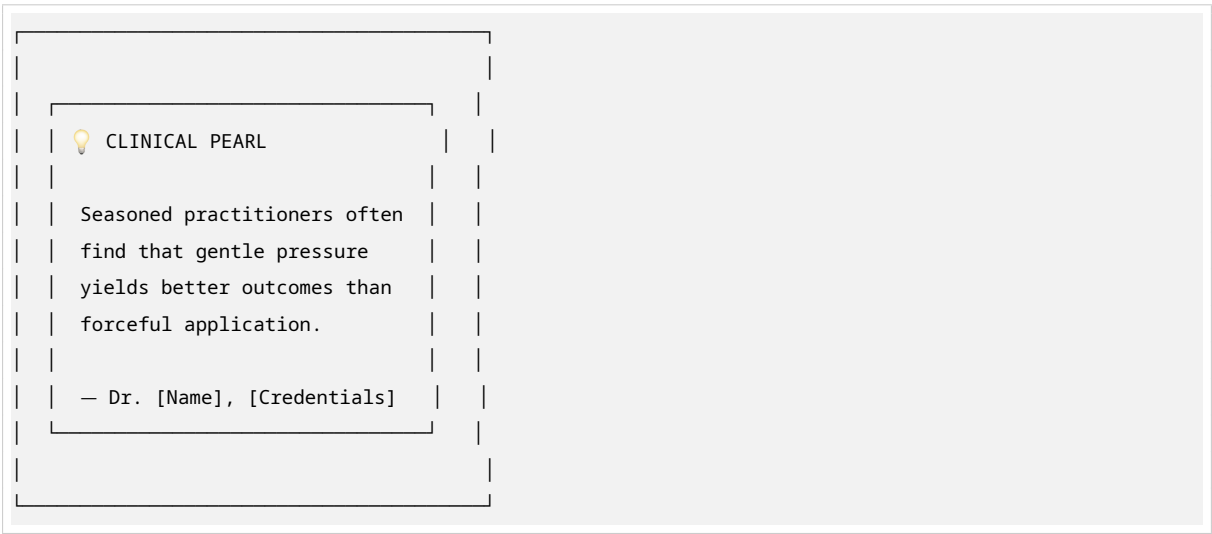

Styling:

- Background: #FDF2F2 (light red)
- Left border: 4px, #C0392B
- Icon: , #C0392B
- Text: Montserrat Regular, 14px

16.3 Tip/Clinical Pearl

Purpose: Expert insight, practical advice

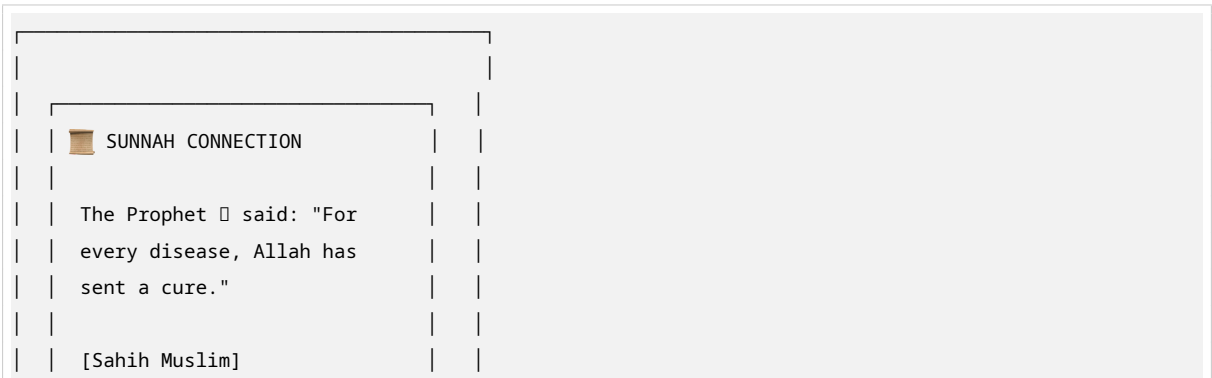

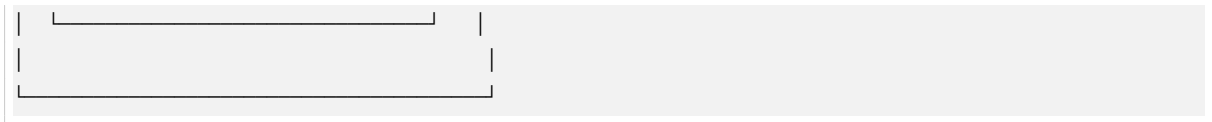

Styling:

- Background: #F0FDF4 (light green)
- Left border: 4px, #27AE60
- Icon: , #27AE60
- Attribution: Montserrat Italic, 12px, 60% opacity

16.4 Sunnah Reference Callout

Purpose: Connecting content to Islamic tradition

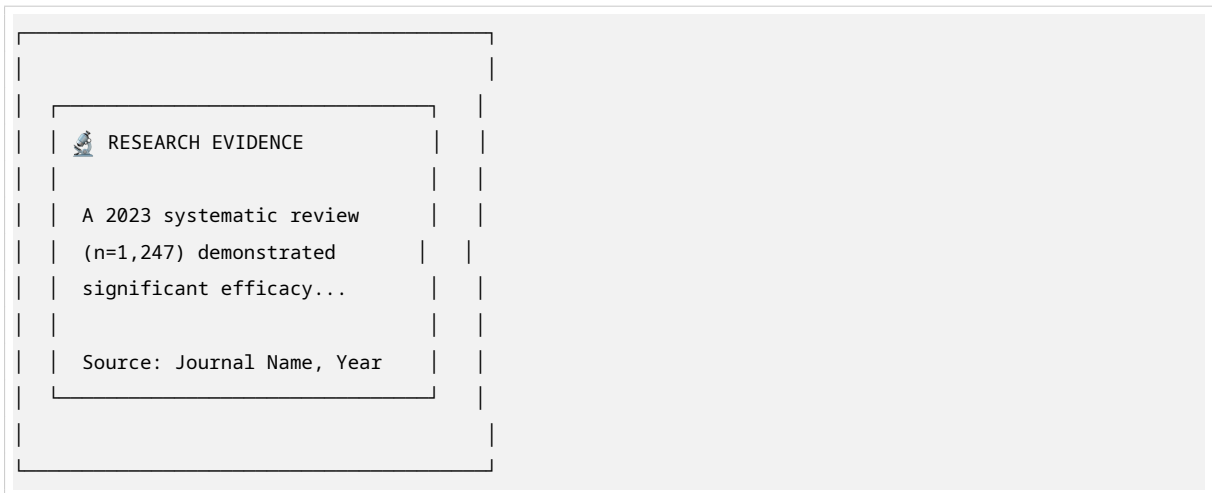

#### Styling:

- Background: Light sand (#F5F0E8)
- Left border: 4px, deep emerald
- Icon:  or , deep emerald
- Hadith text: Playfair Display Italic, 16px
- Source: Montserrat Medium, 12px, sand gold

### 16.5 Research Evidence Callout

**Purpose:** Scientific backing, citations

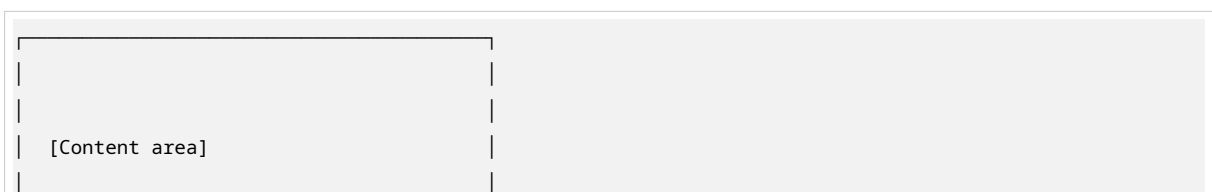

#### Styling:

- Background: #EFF6FF (light blue)
- Left border: 4px, #3B82F6
- Icon: , #3B82F6

## 17. FOOTER SYSTEM

### 17.1 Standard Footer

**Appears on:** All content slides except title and chapter openers

|                                                                                            |  |                                |
|--------------------------------------------------------------------------------------------|--|--------------------------------|
| <div> <div></div> <div>SUNNAH REMEDIES ACADEMY</div> <div>Hijama Fundamentals</div> </div> |  | <div>12</div> <div>of 45</div> |
|--------------------------------------------------------------------------------------------|--|--------------------------------|

**Footer Elements:**

| Element            | Position                  | Style                                         |
|--------------------|---------------------------|-----------------------------------------------|
| Brand name         | Bottom left               | Montserrat Medium, 10px, uppercase, sand gold |
| Course/module name | Bottom left (below brand) | Montserrat Regular, 9px, 50% opacity          |
| Page number        | Bottom right              | Montserrat Regular, 10px, deep emerald        |
| Total pages        | Bottom right              | Montserrat Regular, 10px, 50% opacity         |

**Rule:** 1px horizontal line, deep emerald at 15% opacity, full width

**17.2 Minimal Footer**

**Appears on:** Title slides, chapter openers, reflection slides

|                                                            |  |
|------------------------------------------------------------|--|
| <div> <div>[Content area]</div> <div>12 of 45</div> </div> |  |
|------------------------------------------------------------|--|

**Rule:** Centered page number only, no brand text (brand is prominent in content)

**17.3 Copyright Footer**

**Appears on:** Final slide, reference slides

|                                                                                |  |
|--------------------------------------------------------------------------------|--|
| <div> <div>[Content area]</div> <div>2026 Sunnah Remedies Academy</div> </div> |  |
|--------------------------------------------------------------------------------|--|

## 18. HEADER SYSTEM

### 18.1 Standard Header

**Appears on:** Content slides, lesson slides

MODULE 3 | LESSON 3.2

[Content area]

#### Header Elements:

| Element       | Position                   | Style                                          |
|---------------|----------------------------|------------------------------------------------|
| Module number | Top left                   | Montserrat Medium, 10px, uppercase, sand gold  |
| Lesson number | Top left (after separator) | Montserrat Regular, 10px, 50% opacity          |
| Separator     | Between elements           | 1px vertical, 12px height, deep emerald at 20% |

### 18.2 Contextual Header

**Appears on:** Clinical slides, case studies

CLINICAL PROTOCOL | Cupping Points

[Content area]

#### Context labels:

- CLINICAL PROTOCOL
- CASE STUDY
- ASSESSMENT
- REFERENCE

- RESEARCH

---

### 18.3 Minimal Header

**Appears on:** Quote slides, reflection slides, divider slides

---

## 19. PROGRESS INDICATOR

### 19.1 Dot Progress Bar

**Position:** Bottom center, above footer

**Styling:**

- Completed: Filled circle, sand gold, 8px diameter
- Current: Circle with sand gold border, 2px, 8px diameter
- Remaining: Circle, deep emerald at 20%, 8px diameter
- Spacing: 8px between dots

---

### 19.2 Segment Progress Bar

**Position:** Bottom center

**Styling:**

- Completed: Sand gold fill
  - Remaining: Deep emerald at 10% fill
  - Height: 4px
  - Width: 200px
  - Rounded ends: 2px
-

## 19.3 Module Map

**Appears on:** Chapter openers, module summaries

### Styling:

- Complete: Filled, sand gold
- Current: Larger, pulsing animation (digital), sand gold border
- Locked: Outline, deep emerald at 20%

## 20. PAGE NUMBERING

### 20.1 Standard Numbering

- Format: **Current of Total** (e.g., “12 of 45”)
- Position: Bottom right, 8% margin from edge
- Style: Montserrat Regular, 10px, deep emerald
- Excluded from: Title slides, chapter openers, divider slides

### 20.2 Section Numbering

- Format: **Module.Lesson.Slide** (e.g., “3.2.4”)
- Position: Top right, aligned with header
- Style: Montserrat Regular, 10px, 50% opacity
- Used for: Internal reference, instructor navigation

### 20.3 Hidden Numbering

- Applied to: Title slides, chapter openers, reflection slides
- Number still exists in slide master for reference but is invisible

## 21. ANIMATION PRINCIPLES

### 21.1 Philosophy

**Restrained Elegance.** Animations should feel intentional and calm — never distracting. The Sunnah Remedies brand communicates authority, tranquility, and timelessness. Animation supports comprehension, never entertains.

### 21.2 Core Animation Types

| Animation      | Use Case                    | Duration | Easing   |
|----------------|-----------------------------|----------|----------|
| <b>Fade In</b> | Text blocks, images, quotes | 0.5s     | ease-out |

Table 5 – continued

| Animation      | Use Case                      | Duration | Easing      |
|----------------|-------------------------------|----------|-------------|
| Slide Up       | Bullet points, list items     | 0.4s     | ease-out    |
| Slide Left     | Sequential process steps      | 0.5s     | ease-in-out |
| Scale In       | Important callouts, key terms | 0.3s     | ease-out    |
| Opacity Reveal | Layered diagrams, anatomy     | 0.6s     | linear      |

21.3 Animation Rules

- 1. **One element at a time.** Never animate more than one significant element simultaneously.
- 2. **Consistent direction.** All entrance animations enter from the same direction within a slide (typically bottom or left).
- 3. **No bounce, no elastic.** Avoid playful physics. Use smooth deceleration only.
- 4. **Subtle emphasis.** For highlighting, use a gentle opacity shift (100% → 80% → 100%) or a 2px border glow, never shaking or scaling.
- 5. **Text first, image second.** When both appear, text animates 0.2s before imagery.
- 6. **No animation on:** Tables, reference data, dense clinical content (instant appearance).

21.4 Build Sequences

Standard Bullet Build:

Bullet 1 → 0.5s pause → Bullet 2 → 0.5s pause → Bullet 3

Process Build:

Step 1 appears → Arrow draws → Step 2 appears → Arrow draws → Step 3

Diagram Build:

Base structure → Layer 1 highlights → Layer 2 highlights → Final label

21.5 Animation Timing Reference

| Slide Type       | Total Animation Time | Notes                                 |
|------------------|----------------------|---------------------------------------|
| Title slide      | 1.5s                 | Title → subtitle → decorative element |
| Content slide    | 2-4s                 | Per element, cumulative               |
| Diagram slide    | 3-5s                 | Layered reveals                       |
| Quote slide      | 1s                   | Single fade                           |
| Assessment slide | 0.5s                 | Instant (no distraction)              |

## 22. TRANSITION PRINCIPLES

### 22.1 Philosophy

**Seamless Continuity.** Transitions should feel like turning a page in a respected text — smooth, predictable, and unobtrusive.

### 22.2 Approved Transitions

| Transition   | Use Case                            | Duration |
|--------------|-------------------------------------|----------|
| <b>Fade</b>  | Default —all standard slides        | 0.4s     |
| <b>Push</b>  | Chapter transitions, module changes | 0.5s     |
| <b>Wipe</b>  | Sequential processes, timelines     | 0.5s     |
| <b>Morph</b> | Diagram evolution, before/after     | 0.6s     |

### 22.3 Transition Rules

1. **Fade is default.** Use for 90% of all slide transitions.
2. **Push for structure.** Use push (bottom-to-top) when moving from lesson to lesson or module to module.
3. **Wipe for flow.** Use wipe (left-to-right) for process slides and timelines.
4. **Morph for diagrams.** Use morph only when a diagram evolves across consecutive slides.
5. **Never use:** Random, cube, flip, ripple, or any 3D transition.
6. **No transition:** Title slides, chapter openers (cut only).

### 22.4 Transition Matrix

| From → To               | Transition | Direction     |
|-------------------------|------------|---------------|
| Title → Content         | Fade       | —             |
| Content → Content       | Fade       | —             |
| Content → Chapter       | Push       | Bottom to top |
| Chapter → Content       | Fade       | —             |
| Lesson → Lesson         | Push       | Bottom to top |
| Process → Process       | Wipe       | Left to right |
| Before → After          | Morph      | —             |
| Assessment → Assessment | Cut        | —             |

## 23. PRESENTATION RHYTHM

### 23.1 The Sunnah Remedies Cadence

A presentation should feel like a guided journey — not a data dump. The rhythm follows this pattern:

|        |   |         |   |          |   |         |   |           |   |         |
|--------|---|---------|---|----------|---|---------|---|-----------|---|---------|
| [OPEN] | → | [BUILD] | → | [DEEPEN] | → | [PAUSE] | → | [CONNECT] | → | [CLOSE] |
| 5%     |   | 30%     |   | 35%      |   | 10%     |   | 15%       |   | 5%      |

| Phase          | Purpose                          | Slide Types                   | Pacing               |
|----------------|----------------------------------|-------------------------------|----------------------|
| <b>OPEN</b>    | Set intention, establish context | Title, chapter opener         | Slow, deliberate     |
| <b>BUILD</b>   | Present core concepts            | Lesson content, diagrams      | Steady, progressive  |
| <b>DEEPEN</b>  | Clinical detail, application     | Protocol, case study, table   | Methodical, thorough |
| <b>PAUSE</b>   | Reflection, integration          | Reflection, quote, discussion | Slow, spacious       |
| <b>CONNECT</b> | Assessment, synthesis            | Quiz, summary, comparison     | Active, engaging     |
| <b>CLOSE</b>   | Consolidation, forward look      | Summary, next steps           | Confident, clear     |

### 23.2 Slide Density Guidelines

| Slide Type | Max Elements | Max Words | Max Images  |
|------------|--------------|-----------|-------------|
| Title      | 3            | 15        | 1           |
| Content    | 5            | 80        | 2           |
| Diagram    | 4            | 40        | 1 (complex) |
| Clinical   | 6            | 100       | 2           |
| Case Study | 4            | 60        | 1           |
| Assessment | 3            | 50        | 0           |
| Summary    | 5            | 60        | 0           |
| Reflection | 2            | 30        | 0           |
| Quote      | 2            | 50        | 0           |

### 23.3 Timing Guidelines

| Slide Type    | Suggested Duration | Notes                        |
|---------------|--------------------|------------------------------|
| Title/Chapter | 30-60 seconds      | Allow absorption             |
| Content       | 1-2 minutes        | Per slide                    |
| Diagram       | 2-3 minutes        | Explain each layer           |
| Clinical      | 2-4 minutes        | Safety-critical, don' t rush |
| Case Study    | 3-5 minutes        | Narrative arc                |
| Assessment    | 1-2 minutes        | Per question                 |
| Reflection    | 30-60 seconds      | Silence is content           |
| Quote         | 15-30 seconds      | Let it land                  |

### 23.4 The 10-20-30 Rule (Adapted for Sunnah Remedies)

- **10 slides maximum** per 20-minute lesson segment
- **20 minutes maximum** per continuous segment before a break
- **30 words maximum** per slide (primary text — labels and callouts excluded)

### 23.5 Breathing Room

Every presentation must include intentional whitespace and pause:

1. **One reflection slide** per module (minimum)
2. **One quote slide** per lesson (minimum)
3. **Visual rest:** After every 3-4 dense content slides, follow with a visual divider or image slide
4. **Discussion breaks:** Every 15-20 minutes of content, include a peer discussion prompt

### 23.6 Scalability Architecture

To ensure this system scales to hundreds of presentations:

#### Template Library:

- 25 master slide layouts (all defined above)
- 50+ reusable components (callouts, cards, tables)
- 10 color themes (primary + 9 module variants)

#### Component System:

- All elements are **modular** — swap text, images, and data without breaking layout
- **Global styles** — change colors, fonts, or spacing in one place, cascade everywhere
- **Placeholder logic** — every image, text box, and chart has a labeled placeholder

#### Naming Convention:

```
[TYPE]_[VARIANT]_[CONTEXT]
```

Examples:

- TITLE\_Course\_Dark
- CONTENT\_Standard\_Light
- CLINICAL\_Protocol\_Step
- ASSESSMENT\_MCQ\_Standard
- CALLOUT\_Warning\_Critical

#### Version Control:

- Master template: v1.0 (locked)
- Module-specific variants: v1.0-M01, v1.0-M02, etc.
- Annual review cycle for template updates

---

## 24. IMPLEMENTATION CHECKLIST

#### For Each New Presentation:

- Select appropriate master layout from template library
- Apply correct color theme (module-specific if applicable)
- Set slide size (16:9 default)
- Configure header/footer for course context
- Apply progress indicator style
- Set transition defaults (fade)
- Map animation sequence per slide type
- Verify accessibility (contrast ratios, font sizes)

- Test on target display (projector, screen, mobile)
- Export backup in PDF format

---

This system is designed to be **modular, scalable, and brand-consistent** across every course, module, and lesson in the Sunnah Remedies Academy ecosystem. Every layout, animation, and transition decision serves the dual purpose of **clinical clarity** and **spiritual reverence** — the core pillars of your educational mission.
